# Ark Independent Studies <br> 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year) 

General Information about the School Accountability Report Card (SARC)

## DataQuest

## California School Dashboard

## Internet Access

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/

For more information about the LCFF or the LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

The California School Dashboard (Dashboard)
https://www.caschooldashboard.org/reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.
Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

Ark Independent Studies is an accredited high school in the Santa Cruz City Schools. Students meet weekly for one hour with an instructor on a one-to-one basis to review a minimum of 20 hours of work completed during the week. During this meeting, students are given specific assignments, and coursework is corrected and evaluated. Students complete their coursework during the week at home. Assignments are tailored to fit the individual student's interests, needs, and learning style. Students have access to educational support by certificated staff and mathematics lab three days per week. Several enrichment offerings (guest speakers, field trips, "mini-classes") are made available to all Ark students through the course of the year. All Ark teachers are fully credentialed, with a broad range of teaching experience and expertise. In addition, Ark offers a Math Lab with a credentialed teacher of mathematics who meets with students both individually and in small groups.

In 2020-21, in response to the pandemic and the onset of Distance Learning, the Ark changed its CDE school code to encompass grades 6-12 (from 9-12). With the aim of offering A-G and CTE coursework in addition to district adopted coursework, the District purchased an online curriculum and added an Online Only pathway and provided professional development for staff in facilitating the online format, dedicated part-time FTE to working exclusively with students choosing the Online Only pathway. As of the end of the first quarter, the student population had grown by more than $40 \%$ and, as we expected it to, it grew even further as first semester grades were released at the comprehensive schools. To this end, the District has added new staff to the traditional IS staff as well as Credit Recovery staff to support students who have become credit deficient as a result of the pandemic and the District's need to move to a Distance Learning model. The Math Lab teacher meets with students by appointment over Zoom during school closure.

The Ark's schoolwide learning outcomes are as follows:
I. Every student will demonstrate personal responsibility
II. Every student will be an effective communicator, and
III. Every student will be able to demonstrate and apply higher order thinking skills

## Mission

At the Ark Independent Studies we:

- Connect with students as individuals
- Inspire students to find meaning
- Motivate students to take responsibility
- Support students to discover and pursue their interests

## A. Conditions of Learning State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

## School Facility Conditions and Planned Improvements

The Ark is located in a historic, 105-year-old building on the Branciforte Small Schools Campus. The Ark has one instructional classroom in the building with six Internet-connected computers and an LCD projector. The Math Lab meets in a different classroom three times a week. Ark provides many options for textbooks, which are stored in various locations at Branciforte Small Schools location.

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

## Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. Smarter Balanced Summative Assessments and CAAs for ELA in grades three through eight and grade eleven.
2. Smarter Balanced Summative Assessments and CAAs for mathematics in grades three through eight and grade eleven.
3. California Science Test (CAST) and CAAs for Science in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

## Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 Career Technical Education Programs

All Ark students have access to Career Technical Education (CTE) classes at high schools throughout the county and through the online format. During the 2018-19 school year, four Ark students participated in countywide CTE classes. In 21-22, seven students are enrolled in CTE classes. Currently, there are no students taking advantage of this resource.

## State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

## 2022-23 School Safety Plan

The School Site Council that represents our four schools at the Branciforte Small Schools Campus (BSSC) reviews the previous year's Safe School Plan and collaborates to write a new plan each year. A goal in our 2022-23 plan is to continue to implement Trauma-Informed practices in classrooms and among staff and parents. We continue to implement practices from our past years of intensive professional development in Positive Discipline in the Classroom and Restorative Justice. We undertake a number of actions to meet this goal: continue to hold positive discipline support group classes, explicitly teach and practice self-regulation techniques, provide training for implementation of restorative justice practices, and focus on the neurosequential model in lesson design in various professional development sessions.

## 2021-22 Types of Services Funded

We update our Single Plan for Student Achievement each year to ensure that our instruction is focused on student needs as shown by achievement data. For the 2021-22 fiscal year, we worked closely with our School Site Council and staff to allocate our LCFF supplemental and Title 1 funds to provide to purchase supplementary instructional materials, to offer guest speakers and real-world learning experiences, and to provide ongoing staff training. The Ark also purchased a license for the MAP online assessment so that student progress could be monitored in various formats. Finally, LCFF and Title 1 funds were used to fund a part-time certificated math teacher for one-to-one and small group instruction.

## Professional Development

In 22-23, professional development focuses on
a. developing A-G compliant courses;
b. using MAP and local assessments to monitor student progress and to plan instruction;
c. staff becoming more familiar with math power standards and how to support students in achieving them;
d. staff participates in campus-wide training in Trauma Informed strategies.

With the growth and expansion of the program in 20-21, new teachers are learning about alternative assessment, record keeping processes, and learning the standards and expectations of the range beyond the grade level that has been their expertise. Ark staff have undertaken the Herculean task of culling the 30+ years of curriculum so as to offer a guaranteed and viable curriculum should a student choose to attend a comprehensive school in the future. In 21-22, in addition to the above, staff used a High-Impact Instructional Strategy Toolkit and focusing on Teacher Clarity, Feedback, and Goal Setting.

For each of the past four years, the co-principal and one Ark teacher have attended the California Consortium on Independent Studies annual compliance conference. Staff reflection and review in weekly PD sessions supported teachers to implement this new instructional method. Since 2016-17, the Ark's professional development has focused on recommendations that were made after our WASC midterm review and the implementation of the Common Core Standards in math and language arts.

Over the past four years, our staff has met for 60-90 minutes three times per month to review student achievement data, revise curriculum, and set goals for improving student achievement. For the 2020-21 school year, teachers will be supported by regular teacher-principal meetings and the WASC self-study coordinator. The Ark's WASC review was a resounding success!
